

Agriflex®

Layflat Hose Red (8 BAR)

FEATURES

PVC lay flat discharge hoses offer key features for diverse applications:

- **Flexibility:** Highly flexible for easy storage and swift deployment.
- **Lightweight:** Easy to handle and transport due to their lightweight design.
- **Smooth Interior:** Minimizes friction, enhancing fluid flow.
- **High Flow Capacity:** Suitable for rapid fluid transfer with a high volume capacity.
- **UV Resistance:** Can endure extended sunlight exposure without degradation.
- **Easy Coupling:** Quick-connect fittings for hassle-free attachment.
- **Various Sizes:** Available in multiple diameters and lengths for various uses.
- **Cost-Effective:** Economical choice compared to some other hose types.

APPLICATION

PVC lay flat hoses excel in fluid transport and are versatile in:

- **Agriculture:** Irrigating fields and crops efficiently.
- **Construction:** Removing excess water and supplying water for concrete mixing on sites.
- **Mining:** Dewatering mines and water conveyance.
- **Industry:** Liquid transfer and flexible pipelines.
- **Pool & Spa:** Draining and filling pools and spas.

Choose wisely based on hose specs to meet your needs.

SPECIFICATIONS:

Size Actual		Wall Thickness	Working Pressure	Burst Pressure at 20°C	Weight	Length
Inch	mm	mm	BAR	BAR	Kg/M	M/Coil
2	51	1.5	8	24	0.35	100
3	76	1.5	8	24	0.63	100
4	103	1.5	8	24	1.02	100
6	153	2.5	8	24	1.91	100
